Report on Tree Plantation Drive

On 5th June 2024, Tatyasaheb Kore Dental College and Research Centre, New Pargaon, Kolhapur, organized a Tree Plantation Drive to celebrate World Environment Day. The event, conducted by the college's Environmental Sustainability Committee, saw enthusiastic participation from students, faculty, and staff. Over 100 saplings of various species, including neem, mango, banyan, and peepal trees, were planted across the campus. The drive aimed to raise awareness about environmental conservation, highlighting the importance of trees in maintaining ecological balance, improving air quality, and combating climate change.

The Tree Plantation Drive also included an awareness session where faculty members educated participants about the benefits of trees for both the environment and human well-being. The event successfully engaged the college community, promoting collective responsibility toward sustainability. This initiative not only enhanced the college's green cover but also encouraged the staff and students to actively contribute to environmental protection. The planted saplings will be monitored to ensure their growth and contribute to the long-term goal of a greener, healthier campus.
